

MATHIAS HUQUE

SOFTWARE DEVELOPER

Montevideo, Uruguay | contact@mathiashuque.dev | [in/mathias-huque](https://in.mathias-huque) | mathiashuque.dev

SUMMARY

Software developer and software engineer with 7+ years of hands-on programming experience, also working as a university lecturer. Blends functional-programming rigor with pragmatic, full-stack development, and a teaching-honed ability to break down complex systems into maintainable, scalable applications.

EXPERIENCE

Professor - Fundamentals of Computing | February 2026 - Present

ORT University Uruguay | Montevideo, Uruguay

- Design and deliver a functional programming curriculum, teaching students to build and verify computable models of programs against formal specifications.
- Develop coding standards for modular, side-effect-free code using pure functions, immutability, and recursion, grounded in theory-based data representations.
- Design assignments that translate specifications into precise function definitions, achieving over 90% first-pass approval rate with minimal rework.

Teaching Assistant - Data Structures and Algorithms I | March 2025 - December 2025

ORT University Uruguay | Montevideo, Uruguay

- Led hands-on sessions on data structures and algorithms for cohorts of 30+ students, providing targeted tutoring that improved assignment scores for over 70% of assisted students.
- Authored exercises and solution guides across 20+ problem sets, with revisions adopted into every subsequent course offering.
- Built and maintained C++ programs and scripts for coursework and demonstrations, totaling over 2,000 lines of instructional code.

PROJECT

Portfolio - Personal Site | February 2026

www.mathiashuque.dev

- Central hub showcasing selected development projects in depth, alongside academic background and technical focus areas.
- Built with modern technologies spanning web, backend, and tooling.

EDUCATION

Systems Engineering | 2027

ORT University Uruguay | Montevideo, Uruguay

- Final-year Systems Engineering student, expected to graduate March 2027.

Software Engineering, Bachelor's Degree | 2026

ORT University Uruguay | Montevideo, Uruguay

- Focuses on designing, developing, testing, and maintaining software systems, with strong foundations in programming, algorithms, architecture, databases, and engineering best practices to build reliable, scalable applications.

Technological Baccalaureate - Web Dev, Software Dev & Support, Video Games, Robotics | 2019 - 2021

UTU (Universidad del Trabajo del Uruguay) | Montevideo, Uruguay

- Technical secondary education in web development, software development and support - the foundation of 7+ years of programming experience.

SKILLS

Programming Languages: C++, C#, JavaScript, TypeScript, Python, Java, SQL

Frontend: Angular, React, Next.js, React Native, HTML5, CSS, Tailwind CSS

Backend: Node.js, Express.js, NestJS, .NET, EF Core, GraphQL, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, SQL Server, Prisma, Sequelize, Mongoose

Cloud & DevOps: AWS, Google Cloud, Azure, Docker, Git, GitHub, CI/CD, Linux, Vercel, Firebase

Testing: Jest, Jasmine, Cypress, Cucumber

Tools & Other: Postman, Figma, Scrum, Agile

Languages: English C2 Proficiency, Spanish Native
