

MATHIAS HUQUE

SOFTWARE DEVELOPER | FULL STACK

Montevideo, Uruguay | contact@mathiashuque.dev | linkedin.com/in/mathias-huque | mathiashuque.dev

SUMMARY

Software developer with a strong foundation in software engineering, full-stack development, and functional programming. Currently a university lecturer and final-year Systems Engineering student.

EXPERIENCE

Lecturer - Foundations of Computing | February 2026 – Present

Universidad ORT Uruguay | Montevideo, Uruguay

- Designed and taught a functional programming curriculum, teaching students to build and verify computable models from formal specifications.
- Developed standards for modular, side-effect-free code through pure functions, immutability, and recursion, using data representations grounded in theory.
- Designed assignments that translate specifications into precise function definitions, achieving a first-attempt pass rate of over 90%.

Teaching Assistant - Data Structures and Algorithms I | March 2025 – December 2025

Universidad ORT Uruguay | Montevideo, Uruguay

- Led data structures and algorithms lab sessions for groups of 30+ students, providing personalized tutoring that improved grades for over 70% of those coached.
- Authored exercises and solution guides for 20+ problem sets, adopted in every subsequent edition of the course.
- Built and maintained C++ programs and scripts for labs and demonstrations, totaling 2,000+ lines of code.

PROJECTS

SILO — Sistema Integral de Licitaciones y Oportunidades | 2026 – Present

Capstone Project · Systems Engineering · Universidad ORT Uruguay · SONDA Uruguay

- A full-stack platform for centralizing SONDA's bidding process, addressing fragmented information through decision traceability and reuse of prior project records.
- End-to-end software engineering work: discovery, stakeholder interviews, AS IS process analysis, requirements and backlog definition, with a prototype validated by SONDA stakeholders and approved to proceed to Delivery; architecture modeled with C4.
- Architecture based on TypeScript, Next.js, NestJS, and PostgreSQL, with plans for CI/CD, testing, and containerized deployment; prepared for future advanced search and AI-assisted capabilities.

EDUCATION

Systems Engineering | 2027

Universidad ORT Uruguay | Montevideo, Uruguay

- Final-year Systems Engineering student, expected to graduate in March 2027.

Bachelor's Degree in Software Engineering | 2026

Universidad ORT Uruguay | Montevideo, Uruguay

Technical High School Diploma - Web Dev, Software Dev & Support, Video Games, Robotics | 2019 – 2021

UTU (Universidad del Trabajo del Uruguay) | Montevideo, Uruguay

SKILLS

Programming Languages: C++, C#, JavaScript, TypeScript, Python, Java, SQL

Frontend: Angular, React, Next.js, React Native, HTML5, CSS, Tailwind CSS

Backend: Node.js, Express.js, NestJS, .NET, EF Core, GraphQL, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, SQL Server, Prisma, Sequelize, Mongoose

Cloud & DevOps: AWS, Google Cloud, Azure, Docker, Git, GitHub, CI/CD, Linux, Vercel, Firebase

Testing: Jest, Jasmine, Cypress, Cucumber

Tools & Other: Postman, Figma, Scrum, Agile

Languages: English - C2, Spanish - Native
